In the eurocode series of European standards (EN) related to construction, Eurocode 3: Design of steel structures (abbreviated EN 1993 or, informally, EC 3) describes how to design of steel structures, using the limit state design philosophy.. It was approved by the European Committee for Standardization (CEN) on 16 April 2004. Eurocode 3 comprises 20 documents dealing with the different ...

I took a foundation design course taught by Alexander Newman in 2008. At the time, his Metal Building Systems book was a bit out of date. He had a course workbook that contained newer information, but the material was still in draft and some of it handwritten.
