Rutgers Physics News The 2018 Clarivate Analytics (formerly Thomson Reuters) list of highly-cited researchers was just released and we are delighted that, once again, two of our colleagues, Sang-Wook Cheong and Saurabh Jha, are included among this group. This distinction places them among the top 1% most cited for their subject field and year of publication, earning them the mark of exceptional ...

The Feynman Lectures on Physics is a physics textbook based on some lectures by Richard P. Feynman, a Nobel laureate who has sometimes been called "The Great Explainer". The lectures were presented before undergraduate students at the California Institute of Technology (Caltech), during 1961–1963. The book's co-authors are Feynman, Robert B. Leighton, and Matthew Sands.

The Feynman Lectures on Physics - Wikipedia

Astrobiology is an interdisciplinary scientific field concerned with the origins, early evolution, distribution, and future of life in the universe. Astrobiology considers the question of whether extraterrestrial life exists, and how humans can detect it if it does. The term exobiology is similar.. Astrobiology makes use of molecular biology, biophysics, biochemistry, chemistry, astronomy ...

In this comment we address the preprint of Jha and Hirata (arXiv:1809.10316 [physics.chem-ph]) which claims "Numerical Evidence Falsifying Finite-Temperature Many-Body Perturbation Theory." We agree that finite difference differentiation of the exact grand potential is the correct way to verify the terms in the perturbation expansion.

The objective of this course note is to survey practical and theoretical problems in classical thermodynamics. Topics covered includes: Thermodynamic system and control volume, Properties and state of a substance, Properties of a pure substance, Work and heat, The first law of thermodynamics, First law analysis for a control volume, The second law of thermodynamics, Entropy, Second law ...

Curcumin is a constituent (up to $\hat{\wedge}145\%$) of the traditional medicine known as turmeric. Interest in the therapeutic use of turmeric and the relative ease of isolation of curcuminoids has led to their extensive investigation. Curcumin has recently been classified as both a PAINS (pan-assay interference compounds) and an IMPS (invalid metabolic panaceas) candidate.

This book is designed to give a background on the origins and development of Wigner functions, as well as its mathematical underpinnings. Along the way the authors emphasise the connections, and differences, from the more popular non-equilibrium Green's function approaches.

The nature of consciousness, the mechanism by which it occurs in the brain, and its ultimate place in the universe are unknown. We proposed in the mid 1990's that consciousness depends on biologically $\hat{\wedge}$ orchestrated $\hat{\wedge}$ ™ coherent quantum processes in collections of microtubules within brain neurons, that these quantum processes correlate with, and regulate, neuronal synaptic and membrane ...

We apply the recently developed notion of complexity for field theory to a quantum quench through the critical point in 1+1 dimensions. We begin with a toy model consisting of a quantum harmonic oscillator, and show that complexity exhibits universal scalings in both the slow and fast quench regimes.
