Chapter 7 Memory - Henderson State University

to decide in front of alternatives. The memory also fulfills another function: the register of time; memory makes it possible to give continuity to the passing of time. The first circuit of short reflexes (stimuli-response) allows for variations in its complexity, thus allowing specialization of the nervous and endocrine systems.

Psychology Notes - Silo

PSYCHOLOGY 115 Remembering and Forgetting Notes MODULE-II Key Psychological Processes Encoding refers to the translation of incoming stimulus into a unique neural code that a person's brain can process. Storage is the retention of the material encoded over a period of time.
