One good way to see mood (and, to a degree, tone) in action is through genre-crossing movie trailers. In film

editing classes throughout the States, a common assignment is to take an existing film (say, a comedy) and create a film preview that presents the film as a different genre (for example, a horror film).

Avolition, as a symptom of various forms of psychopathology, is the decrease in the motivation to initiate and perform self-directed purposeful activities. Such activities that appear to be neglected usually include routine activities, including hobbies, going to work and/or school, and most notably, engaging in social activities.

The subjunctive is a grammatical mood (that is, a way of speaking that allows people to express their attitude toward what they are saying) found in many languages. Subjunctive forms of verbs are typically used to express various states of unreality such as wish, emotion, possibility, judgment, opinion, obligation, or action that have not yet occurred; the precise situations in which they are ...
